Joint Secretary to the Commissioner of Civil Supplies.

READ: From the Collector of South Kanara, D.Dis. No.4968/44, dated the 24th July 1944.

REFERENCE:

In view of the general rice position in the Province and the acute situation in South Kanara district, the Board considers it necessary to take steps to procure from the cultivator in the South Kanara district all the paddy and other foodgrains that are produced by him in excess of his reasonable requirements.

2. In order to do this effectively, it is necessary to have a correct list of all lands cultivated with paddy and other foodgrains in the district. Under the system of village accounts in force in South Kanara district, no field-war list is maintained of lands cultivated with paddy or other foodgrains in each village. Without such an account, it is impossible to get accurate information regarding the total extent of land cultivated with paddy ~~or other paddy~~ or other foodgrains in each village and the quantity of paddy or other foodgrains that is available for consumption in the village.

3. The Board has, therefore, decided to prescribe a "Foodgrains cultivation account" to be maintained by the karnams in each village of South Kanara district similar to the one prescribed in

the

the case of Malabar district though there is at present no proposal to introduce district wide rationing in this district.

4 The Collector of South Kanara recommends that in order to get this special account prepared under efficient over check an additional Revenue Inspector is necessary for each firka in his district. There are already 12 Special Revenue Inspectors in the district and the Board requests sanction for the employment of 16 additional Revenue Inspectors with a peon for each for a period of one year as recommended by the Collector of South Kanara. They will also be required for procurement later on.

The "Foodgrains Cultivation Account" proposed to be introduced in this district will be a very useful basis for the correct preparation of the Statistical Registers prescribed in Board's L.Dis. 1337-E/44(CS), dated 31st March 1944. The form of account and the memorandum of instructions prescribed for Malabar district apply to this district in all respects. No alteration in the form in Annexure A is necessary except that in place of the word "Desam" the word "village" may be substituted. In the memo. of instructions the word "menon" may be replaced by the word "karnam" or "Shanbhogue" and the outturn to be shown in paras should be in muras except in Hosdrug Sub Taluk where the measurements in paras may be retained.

2. Samai is not grown in this district, nor is it generally used as foodgrains in this district. This section may therefore be omitted so far as South Kanara district is concerned.

3. The Geographical conditions of this district are such that at the original settlement, the cultivation account of the kind now referred to was not prescribed for this district. It was also considered unnecessary in view of the unalterable nature of the settlement for 30 years. There is also no adangal or cultivation note book in this district as are prescribed for the Presidency in general and at present cultivation statement are prepared without any careful and thorough inspections. The account to be prescribed under the present order of the Board will have to be prepared after thorough field to field inspection and this work required detailed overcheck. The original work may, however, be got done by the Karnams who have since been relieved of

of some ordinary items of work such as darkhast, etc. The present staff of Revenue Inspectors with their increased work will not, however, be able to do the over-check as efficiently as needed. Each Revenue firka will require an additional Special Revenue Inspector for this purpose. There are at present 28 Revenue firkas in this district and there are already 12 special Revenue Inspectors (with one peon each) for work connected with the price control and procurement of rice and paddy (Vide - G.O. No.Ms.2728, Development Department, dated 23rd June 1941)- I recommend that 16 additional Revenue Inspectors in the time scale of 30 to 55 with ordinary F.P.A. may be sanctioned for this district for a period of one year so that each Revenue firka will have a separate Revenue Inspector both for Price Control and Azmaish of cultivation and also for the work connected with requisitioning of rice and paddy. One peon to work under each of these Special Revenue Inspectors may also be sanctioned.

Subject to orders, a draft order is submitted

2. As the work requires some knowledge of survey and measurements of lands, the employments of Rev Inspectors may also be sanctioned.

3. The Bd expect that the Rev Inspectors will be required for Government work after the [illegible] work of drawing up a list of cultivators like Patwaris etc is completed. It is recommended that this employment may be sanctioned for 1 year. Perhaps the Board time may be added to the employment of the Staff for 3 months in the 1st instance. The Bd may be asked to report on the work done by the Staff and as to the necessity for the retention of the Staff along with the proposals for retrenchment of their numbers.

Please see pp.1-4 C.F. In view of the reported acute food situation in the S.Kanara District, it may be agreed that there is necessity for azmoishing of the extent of cultivation of food crops in the district for the preparation of a correct list of all lands cultivated with paddy and other food grains in the district before resorting to requisitioning of paddy and rice particularly as it is stated that it is impossible to get accurate information regarding the above from the existing village accounts in force in the district.

I understand from Rev Kal the "adangal" has been abolish Board in S.Kanara

But an R.I. for each firka for one year as proposed by the Board or for 6 months as recommended by the Development Department, to do the above work would seem to be excessive. Ordinarily an R.I. is able to complete the azmoish of his firka within the cultivation season or in about 2 or 3 months and a special R.I. though he would be partly engaged on price control work, could ~~be able to~~ complete the work within about 3 months especially

Board recd on 2 outlaters

of compilation

as the initial completion of the accounts will be done by the village karnams and the R.Is. should only over-check the accounts efficiently.

2) The Collector and the Board have recommended the sanction of the staff for a period of one year ~~apparently~~ with a view to employ them on requisitioning and procurement work later on. Since it is stated that there is at present no proposal to introduce district wide rationing in S. Kanara, it does not seem necessary that staff should be sanctioned in advance. For the present Finance may advise that 16 addl. R.Is. and 16 peons as proposed may be sanctioned for a period of 3 months and the Collector asked to report at the end of the period the progress of work done and to submit proposals for the further continuance of the staff, if necessary. The cost of the proposal according to the Board is Rs 22,974 for 1 year and according to the suggestion of this department Rs 5744 for 3 months. The new service procedure should be adopted.

Subject to the above remarks the draft order on pp.1-2

above may be accepted and the file returned to Development.

Summarising note

The proposal is to sanction the employment of Sixteen Rev. Inspectors and 16 peons in connection with the maintenance of 'Foodgrains Cultivation accounts' in each village in the S. Kanara district. (The work seems to require some knowledge & completion of the measurement of lands, Survey etc, and hence the employment of Rev Inspectors) Twelve Rev Inspectors & 12 peons are already available in the district and the addl staff now proposed by the Collector

K P 4/8

will thus make it possible to allot 1 Rev Inspr and one
peon for work in each of the 28 firkas
of the District. Though the Bd of Rev(a) has recommended
that the employment of the Addl Staff may be
sanctioned for one year, it is proposed to sanction
the employment for 3 months only in the first
instance as suggested by Finance. The cost of
the Staff for 3 months works out roughly
to Rs 5,746. The case may be circulated
to all the Advisers and H.E. the Governor
for orders. Draft order below is for approval
